## Experiment - 6

Aim:- create a simple cloud software application for library book reservation system using any cloud service provider to demonstrate SaaS.

### Procedure:-

- 1) Go to Zoho.com
- 2) Login to Zoho.com
- 3) create a new form for library book reservation system
- 4) Get input from user like
  - student name
  - student reg No
  - Book Name
  - Book id
  - ~~Book~~ Borrow date
  - Return date
- 5) Software has been created
